Life/2021

welcome to
your
nephrology
campus

Dear Life/residents,

Dialysis therapy is life-saving for approx. 3.4 million people worldwide. However, the complexity of CKD treatment is enormous with novel approaches emerging. Let's get together to explore these possibilities. Join Life/2021 and be part of the networking community to plan for better and more sustainable care of CKD patients. Meet nephrologists from all over the world, learn about the future of kidney disease care from the renowned faculty and implement new findings directly in your daily clinical practice.

Life/2021 nephrology congress
from September 15 – 18, 2021

Your program along 4 learning pathways includes

- > 60 hours of scientific content
 - 19 lectures
 - 24 breakout sessions
 - a dedicated nurse channel
 - a resident program
- presented by over 80 faculty members

Life/2021 resident program is a special offer to support physicians in residency with additional lectures and workshops and the opportunity to exchange with peers and experts; an invitation to actively participate in an informal event to foster your medical-scientific knowledge and grow your network.

Welcome and Impulse Lecture

Wednesday, 12.00 p.m. - 01.00 p.m. CEST

Resident Workshops

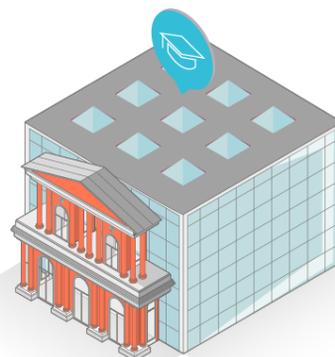

Thursday, 09.00 a.m. - 10.00 a.m. CEST

Friday, 09.00 a.m. - 10.00 a.m. CEST

Saturday, 08.45 a.m. - 09.45 a.m. CEST

International Get-Together

Friday, 07.30 p.m. CEST – open end

RESIDENT PROGRAM

Life/2021 resident workshops

Debate about interactive case discussions

You will get the chance to choose your first workshop topic within which you will be assigned to a specific topic for a 10 min presentation that you will need to prepare beforehand. For the second workshop you will be assigned randomly to another workshop in which you will be part of the audience and the discussion round.

Workshop slot 1

Workshop slot 2

RESIDENT PROGRAM AT A GLANCE

WEDNESDAY 15.09.2021

12.00 pm – 13.00 pm

Welcome and Impulse Lecture

Information about Life/2021 nephrology campus and resident program.
Successful Establishment of Human Resources Development Programs in Nephrology and The bright future of Nephrology

THURSDAY 16.09.2021

09.00 am – 10.00 am

Workshop slot 1

Various topics of current trends and problems in nephrology

FRIDAY 17.09.2021

09.00 am – 10.00 am

Workshop slot 2

Various topics of current trends and problems in nephrology

7.30 pm – open end

International Get-Together

What do you do on a Friday night during a global pandemic? Exactly, you meet up with people online!

SATURDAY 18.09.2021

08.45 am – 09.45 am

Workshop slot 3

Various topics of current trends and problems in nephrology

RESIDENT PROGRAM – WORKSHOP TOPICS

After your registration you will be able to choose one of the following workshops in which you will present an assigned topic. Your second workshop will be assigned randomly from the workshops listed down below where you are going to participate in the audience and in the discussion round.

Nephro skills

Home dialysis

Hemodialysis

Holistic care and health innovation

#03 Klein/Kraus
Vascular access management

#02 Goffin/Ok
Home dialysis

#05 Panichi/Stuard
Hemodialysis

#01 Avesani/Stenvinkel
Nutrition in CKD patients

#04 Röder/Lopau
Nephrology skills

#11 Evans/Mitra
Transition management

#08 Malyszko/Heimbuenger
Renal residual function

#07 Kooman/Usvyat
Digital solutions

#06 Lichodziejewska-Nimierko/Spasovski
Transplantation

#13 Ficheux/Rodrigues
Home dialysis

#12 Wiecek/Taal
Cardiovascular protection in ESKD

#14 Lambers-Heerspink/Jager
Clinical performance measurements

#09 Ashuntantang/Swanepoel
Transplantation

#18 Hussein/Davies
Transition management

#15 Heaf/Mallamaci
Cardiovascular protection in ESKD

#16 Bruchfeld/Huber
COVID-19 and the kidney

#10 Seck/Vanholder
Global awareness

#17 del Vecchio/Wheeler
Anemia management

#19 Evenepoel/Vervloet
Vascular calcification

PRELIMINARY RESIDENT PROGRAM

WEDNESDAY, SEPTEMBER 15, 2021

12:00 p.m. –
01:00 p.m.

Welcome and Impulse Lecture

Resident committee:

Peter Stenvinkel
Christoph Wanner

Miriam Banas
Wim van Biesen

A warm welcome to our Life/2021 residents! We look forward to meeting you and to accompanying you on your journey into nephrology along with fellow young nephrologists. With this dedicated session our resident committee would like to give you an introduction to the future trends in nephrology and your professional career possibilities.

Successful Establishment of Human Resources Development Programs in Nephrology – Miriam Banas

Due to the increasing number of patients with kidney failure and the increased workload, the number of nephrologists needed continues to increase worldwide. Structured programs for students and doctors can help to discuss important questions and to set the course for a successful clinical and scientific professional life.

The bright future of Nephrology – Wim van Biesen

Just like healthcare in general, nephrology has changed substantially over the last decade. And for sure, it will continue to do so. Nephrologists will need to adapt accordingly. We will need to ensure that what was good in the past can be continued and that what was not good can be improved. Visionary leadership at micro, meso and macro level will be essential. We will need to build this “future leadership” by involving young potentials already now.

THURSDAY – SATURDAY, SEPTEMBER 15 – 18 , 2021

Thursday
09:00 a.m. –
10:00 a.m.

Workshops

Day: Thursday 16th, Friday 17th, Saturday 18th September 2021

Friday
09:00 a.m. –
10:00 a.m.

Speaker: 2 Faculty members 2 Residents

Have you ever wanted to actively participate in a lively and passionate discussion? Welcome to our Life/2021 workshops!

Saturday
08:45 a.m. –
09:45 a.m.

We will assign you to a small and personal workshop group consisting of four residents and two faculty members who are experts in their fields. On two days, you will have a one-hour workshop slot to discuss current trends and problems in nephrology. To spice things up a bit, you will prepare one out of two argumentation sides around a pre-assigned debate topic. This means you will argue with your fellow residents about two different point of views in nephrology practices and renal care treatments.

Let the best reasoning win!

FRIDAY, SEPTEMBER 17, 2021

07:30 p.m. –
open end

Informal Get-Together

Day: Friday 17th September 2021

What do you do on a Friday night during a global pandemic? Exactly, you meet up with people online!

The Life/2021 resident program hosts many international residents from over 30 different countries worldwide. This evening is the perfect opportunity for you to get to know each other. You will be able to join small and international groups and talk about anything you would like to.

There will be different virtual meeting rooms for you to gather, eg. a digital cocktail party, a Netflix room, a research parlour for discussing research topics, a University hall, and a spare time activities lounge to meet others who share your passion. Who knows - maybe you find a fellow research partner, or someone who binge-watched the same Netflix series as you? We are happy to help you connect.
